SKILLS

-
- **Languages:** C++, C, python
 - **Tools/Platforms:** MySQL, MS Excel, MS Word, PowerPoint
 - **Soft Skills:** Problem-Solving Skills, Team Player, Project Management, Adaptability
 - **Laboratory Skills:** Sample preparation, solution preparation, titration, pH measurement, analytical techniques, aseptic techniques

INTERNSHIP

Oxygen Analytical Laboratories – QC Laboratory Intern

Baddi, Himachal Pradesh

July 2026

- Gained hands-on exposure to Quality Control laboratory practices and analytical testing.
- Assisted with HPLC and GC-based analytical testing of laboratory samples.
- Performed sample preparation and solution preparation following laboratory procedures.
- Maintained accurate laboratory data records and QC documentation.
- Followed laboratory safety, cleanliness and standard operating procedures during testing activities.
- Developed practical understanding of analytical testing workflow, documentation and quality control practices.
- Techniques: HPLC · GC · Sample Preparation · Analytical Testing · QC Documentation · Laboratory Safety

PROJECTS

-
- **Online Food Delivery system:** April 2026
Developed a Python-based platform for browsing food items, placing orders, and managing customer and order information. Implemented core functionalities for a smooth and user-friendly food ordering experience.
Developed backend logic for user management, food selection, order processing, and database operations.
Tech: Python.
 - **Fire and Smoke Detector Using Arduino:** November 2024
Developed an Arduino-based safety system to detect fire and smoke using sensors and provide an immediate alert through a buzzer/indicator. Integrated sensor inputs with Arduino for real-time monitoring and response.
Designed and tested the system for early fire and smoke detection and improved response through automated alerts
Tech: Arduino · C/C++ · Smoke Sensor · Flame Sensor · Buzzer · LED

VOLUNTEER EXPERIENCE

Community Development Program (CDP) – Tree Plantation Drive

July 2025

- o Participated in a tree plantation initiative focused on environmental sustainability and community awareness.
- o Worked collaboratively with team members to support plantation activities and promote environmental responsibility.

CERTIFICATES

- Artificial intelligence tools workshop – BE10X August 2026
- Quality control training – Oxygen analytical laboratories July 2026
- Python complete course– Udemy October 2025
- Hone Communication for Successful Career – Lovely Professional University October 2024

ACHIEVEMENTS

- Secured Grade A, Hone Communications for Successful Career October 2024
- School Level Athlete:
Participated in school-level athletic events, demonstrating discipline, perseverance, fitness, and competitive January 2022

EDUCATION

-
- [Lovely Professional University](#) Punjab, India
Bachelor of Technology - Biotechnology; CGPA: 6.5 August 2024
 - [Heritage International School](#) Palamau, Jharkhand
Intermediate; Percentage: 77% April 2021- March 2023
 - [Rotary International School](#) Palamau, Jharkhand
Matriculation; Percentage: 75% April 2019 – March 2021
